

Friday -

My dear Don & Ruth -

Of course I am not cross with you. I have arrived at a place where nothing makes me cross and I disregard it when anyone is cross with me. There is no exception. I felt very cross with E.H. when I found that what he wrote about me made it necessary to explain to a third generation that we were never lovers. Probably the young things would have considered their grand mother more exciting had I been able to say it was true. I thought I told you that Pudg is in really sad shape. Her thoughts don't go beyond herself and the present moment.

I am still fighting the effects of whatever it was that laid me low.

Since I can't tolerate vitamins or Iron - I am now on a series of B¹² shots.

Since you seem to have some of my intolerance for medication - that might be a good route for you to take.

I do feel better - but a feeling of
weakness has made me determined to
take my own pace and not be pushed.
Not always easy.

Up we are near Armond Beach. I
have been down there several times.
I believe you would have enjoyed
the Thanksgiving Bash. You have
seen pictures of most of them. The
champagne and other wines flowed
freely. I am not sure how many
cases Walter Scott brought - besides
the two turkeys - baked on the barbecue.
but we passed out. It makes for
a good memory, for they all made me
feel "Special".

Don't write again until your pile
of unanswered mail is at zero point.

Hope 81 will be good for you both.
The B-12 will probably pull me thru.

As for E.H. he never intrudes
in my memory beyond Christmas 1919.
Can you believe 60 years ago.

Love

Marge.
