

My dear Dan & Ruth,

The perfect month is now past - but I can't feel sad about it for it was so much more than I expected. Even a broken hip couldn't spoil the good times. Cynthia looks so much like Bobbie that it was like having my three children again.

No - I wasn't upset with you - Dan. I have never been upset with anything you have written me. I am glad Ernest has you to champion him. I know your point of view. You have upset me in only one way - and that will last. You were willing to believe the worst about me. Nothing can change that. I am glad you approve of the Marge Bump of today - but Marge Bump of long ago was hurt in a way that can't be mended. I must have been at fault in some way, so hard to surmise the consequences. So be it!

I will continue to tell of my memories as they come to me - I am sorry I had to give up the trip to Petrosky. Did you go to see Bill?

I am so fortunate to live here where conditions are arranged to make it easy for people like me. Temperatures have been record high -

but I remain comfortable. I
can even get in the pool - but
not to swim. The Dr says the
bone is mending in record time.

We had three wonderful days
in a beach front motel in Almond
Beach - I was able to gather three
of my best friends for drinks and
dinner. There was a good restaurant
in the same motel, so I had no
trouble with transportation.

Here are some pictures you
might like to look at and
return.

Love

Marge.
