My dear Don,

I will answer your good letter at once - before
I get bogged down. Today I go to Library Bench
for a meet with friend Laura Lee Horner - the one
with home in D R and Baltimore Forest H.C. She
is fun - A beat - though her English background
still shows - drinks a Bollo Rye - used
to drink too much but now says for Dr tells
her if she does she will have curtains for this
world. I will then be back here to get ready
to leave about Dec 3rd for California via N. Carolina
to see friend Joy Mac Fadyen. reasoning from cancer
surgery - prog nosis not good. after California
I will visit again in Cuernavaca, Mex. I even try
with the idea of flying from there to Spain and
on to see you & Rella - this probably by then
you will be on your way home. If I have time
I will get a pass port before leaving Florida - just
in case I get one of my sudden brain strokes for
sudden action. I want to stay away from
here for a while. Too many people to tell me
they are sorry. Too many Margie watchers to
make me feel uncomfortable if a stray man walks
down the street with me. A widower next door
is waiting to pursue. Dr Evans, in the
Nursing Home, whose apt - I have - phones with
lonely tears in his voice - wanting me to go to see
him or go out to dinner. He is a wonderful old
man, but I have had too much of the Nursing Home
bit for a while. Then J. F. and his sisters will
be down in Jan - with apartments in this building.
With nice grand children I want to play the
conventional patterns - no social life until a

respectable time has passed. I am grateful
that as 66 I have these interesting problems -
and I am not ready for them. An
attractive friend from the eastern shore of Md.
will live in my apt. for the winter. Perhaps
she can take over for me in more ways than
one.

Your villa sounds stupendous. I am glad
you will meet Harold Sobel. I feel a
certain kinship for him.

I wish help thinking that it would
be fun to have Mary H. think I still
have stacks of Ernest's letters. How glad I
am that I don't.

George + I are going to buy the house they
are in in Cal. It is too good a deal to
miss. So I will own half a house in
California. ☺

Interesting that the
address is 20.30 Via Tormina 20. B - Fla. Monterey.

Any letter sent to Box 54341 will
eventually reach me - wherever.

Have had jumpy nerves - a charming
stomach - and our acting energies - but
can't feel sad that Sidney is at last free.
He was too good a guy to have had to take
these last four years. I am glad, glad, glad
that he is gone.

Love

Marge
