

Monday.

Dear Doc & Ruth St John,

My best wishes for your good fortune with your new venture. It sounds interesting and should carry you in many directions.

As you see, I came home. I picked up what seemed a virus - but as soon as I got here all symptoms disappeared. It must have been the cold smog and fog. My weakness has always been in the respiratory region and it didn't help that Pudge is almost a chain smoker.

The heat is now broken as Florida is at its best.

I still plan to go to California
sometime - and was about to
go to the office to list my
apartment for sub - let. Then
I remembered you asked about
it last year so will tell you
first —

Rent — \$ 185.00 plus utilities.

garage space in basement — \$10.00

Utilities average \$13.00 to \$15.00

according to weather. Basic
phone \$7.07 (min) I could leave

my car free for nothing - It
is better to have it driven.
It is a '63 Dodge station wagon -
white with red leather —
It is a good car they tell me.

My apt faces the river with
a view up and down. Sometimes
traffic on the bridge is noisy —

but can always be shut out.

The inclosed from Bill Ahle
may interest you.

Love and haste -

Marge.
