

Aug 19 - 1971
Monday. Fla.

Dear Don -

The enclosed clipping will tell in a nut shell how nearly disastrous was my trip. My zest for travel is gone. I am still fighting the after effects of the flu bug. It's me day down the next.

Bill Ahl may be writing you. He is interested in your venture in old books. You would like Bill for many reasons. He has a delightful way of looking at people and things - but with genuine interest. They were still here when I had to

come home early .

I may try Mexico again in
October - to forget the tin
days alone in a Mexico City
Hotel - sick - sick - sick .

My faltering words of Spanish
were a helpful bridge .
So good to be home .

Love

Marge -
